network. Chrome extension uses your Instagram photo as the background. Basic settings can be adjusted. Chrome extension has no effect on your account if it is already using a wall Useful and versatile, with some issues Showing off your creativity and/or taste for aesthetics Some people are not as impressed with the performance of this extension. Indeed, although it provides a “quick and easy” solution to changing the Instagram background, there are some things to be aware of, including: Instagram doesn’t display the preview of the background you’re going to select, so you’ll have to try it out beforehand to get the “feel” for it. This is a rather frustrating aspect for those who need to see exactly what they’re selecting before they actually change it. When changing the background, you need to wait for the extension to complete its task. Indeed, as soon as you click on “Apply”, the extension won’t change the background immediately, but rather after a bit of time. When you change the background, the images won’t be displayed simultaneously, and this may be annoying. So, yeah, these are a few downsides that you may have encountered. Overall, this tool is easy to use, and its minimalist appearance won’t pose any problems to those who’re using it. You have to admit that it’s a rather time-saving way of changing the Instagram background. Simply install the extension, select the wallpaper that you like, and change the background for your Instagram account. It’s that simple. The selection process itself is relatively “uncomplicated”. All you need to do is scroll through the available images, click the preferred one, and you’re done. Easy-peasy. Furthermore, as already mentioned, the extension won’t show any preview of the new background, nor will it allow you to set any options. This could be annoying, but considering how easy it is to use and the fact that you don’t need to “interact” with Instagram, this “feature-free” aspect shouldn’t be a problem. Simple, convenient, and effective So, this Chrome extension provides 1d6a3396d6
