There is a lot more to Speed Reading, such as the ability to score your reading speed, take a quiz, and use it as an educational tool. A pretty inexpensive application, if you compare it with some more advanced services, which are tailored to the modern users' needs. The only negative thing in our opinion is that Speed Reading isn't free of advertisement banners. Another common problem is that we run into an occasional problem with its voice (as the first commenters have mentioned, on occasion, it simply doesn't speak), but as far as we know, it never blinks and has a perfectly normal pronunciation.
