THE ELDEN RING is an Action-RPG game acclaimed for creating a sense of wonder in the world of Dungeons & Dragons. It has been downloaded **over 10,000,000 times worldwide**, making it a wonderful game for newcomers to the RPG genre, and it has been seen as a crucial game for maintaining the popularity of the RPG genre among a young generation.

However, despite its graphical style and immense popularity, some users had difficulty with the restrictive action script and motion balance. Moreover, with each update the game becomes more and more dated, lacking some of the features from core releases, while the story becomes less gripping. For these reasons, at the request of fans, we started to develop a new version, the Elden Ring 2.0, with a fresh take on the action-RPG genre. This is the dream that had been allowed to grow, and now it has finally come true!

THE NEW FANTASY ACTION RPG.

Game Brian Fitz - 5/6/2014 Review
by: Brian Fitz It's hard to believe that
I'm honest to goodness reviewing this
game. The greatest part about how
everything went down, it all came
down to me. I went on this game site
and started looking around to see
what everyone was up to. Since there
is a growing community of people, I
found the "features" and forums. You
know, everyone's up in arms about
real life stuff like work, getting
married, and making a living. Not me,
I'm a hobbyist when I'm not chasing

after that darn girlfriend. I enjoy video games, but the only ones I play are those simple single player titles that just have you do stuff and reach a goal. My attention span is limited and if I'm not having fun when I play, then that's it. But I've been looking on this game site for a game to come out that I can get into that isn't this same old thing. I was convinced I'd find something like that until I stumbled across something that made my heart skip a beat, an RPG. I quickly scrolled down to see what everyone was talking about. Soon enough I see an ad for an RPG that I can't wait to try. I could've sworn I saw that game before too. I'd play it, but didn't bring it

into the house due to some lame excuse. I have no kids, no house to decorate or keep clean, and no family to care if I'm there or not. This game is the perfect opportunity for me to go forth and be a self-proclaimed nerd. It's high time I take on this RPG and figure out what all this hype is about. What an amazing treat. I'll be sure to check back in as I progress through this wonderful world. I'm so not going to miss any part of my journey. I signed into Runebound's homepage and was greeted with the ad for this game. I was excited to start. I saw the specifications, the cute girl, the various characters, and the shiny new game. I decided to download the

game, but I could never get it
