**WHAT SLEEPING DOG WAKES** Tragedy and romance, life and death, innocence and corruption, the mighty and valorous. • Play as 2 Goddesses Develop in different eras, as castes of Aries and Taurus. Grow, gain new abilities, and become the ultimate warriors in an original storyline. • Famous Characters from Multiple Tales Join beautiful Tana, the ruthless and bloodthirsty goddess of the North, as she seeks revenge for her father's death. Deep in the mountains of the South, you will meet a young man who travels the deep, narrow valleys and faces his fears that bind him. And as you see it unfold, you'll join the "Fatal Encounter," an epic tale based on an ancient, famous tale.

Tomonobu Itagaki, president of SQUARE ENIX Co., Ltd. "To me, Fantasy is something that I would have wanted to play when I was younger." "As a Fantasy Action RPG, I want to make Fantasy Action RPGs that we would want to play when we were young, like if there was a game like this when we were kids."

Players are able to equip a variety of weapons, armor, and magic to develop their characters. Players create a party of six people. Each player controls a party member, and the characters can be freely moved around the screen to perform various actions, like switching stances and skills. For example, you can move two people in the same direction to synchronize your attacks on one enemy. You can also use special skills that you pay a fee for. Connectivity modes-the game supports several "connectivity modes" that allow other players to experience your game by accessing the same world as you, or by participating in your game by waiting online, using a specified number of positions in rooms like enemy attacks and traps, or carrying out quests that trigger events. These connectivity modes allow you to connect with other players to perform joint actions, or simply, by allowing you to explore worlds together.

Camera traps in Indonesia: a new perspective to evaluate risk of species endangerment by the palm oil industry. This study is the first to provide a standardized and focused approach to assess palm oil-related species of conservation concern. The authors developed an index for assessing threat posed to animal species by palm oil production and this index was applied using camera traps to record wildlife sightings. From October 2015 through April 2016, 5,683 camera-trap photographs of 431 species were recorded, of which 40 species were identified as priority species (PPS) of conservation concern. The resulting species-distribution model and association indexes provided important evidence to confirm the current vulnerability of key species. Eighty-one percent of endemic PPS were found in or near palm oil concessions; of those, only 21 species were priority species. This study highlighted important information that could be incorporated into a BIA in order to evaluate impacts of palm oil-related activities to mitigate negative impacts on priority species.

Wilfried Bony's return to Swansea City has been brought forward to next season, his club have announced. The Ivorian forward had been expected to join Stoke City on loan until the end of the 2015-16 Premier League season but, having signed a new deal, the Potters opted to terminate the deal. Swansea have now confirmed that Bony has returned to the club for next season, with Jack Cork expected to follow and also sign a new deal. The Swans are now looking to field a strong squad of players for next season, and they have made it clear that the manager, Michael Laudrup, expects to only play first-team football for his team next season. Swansea's first and only win of the season, at Southampton, left them in the relegation zone in the table.
