## NightBar With Product Key X64

Shopify POS solution for small to medium sized businesses. NightBar is available for .NET Framework 4.0 and 4.5. Features: ✓ Automated Inventory ✓ Pricing ✓ Ordering/Sales ✓ Loyalty ✓ Receipts ✓ Sales/Tracking ✓ Restaurant Night Orders Reasons NightBar may be ideal for: ✓ Simple, no-hassle sales ✓ Low-footprint that can easily be integrated into your existing site. ✓ Low integration cost. ✓ No time-consuming customization or coding ✓ Create great reviews on Google, Yelp and other social networks. ✓ Handy inventory management. ✓ Easy for you and your customers. What's New in Version 2.0.0.1.0? No changes. What's New in Version 1.15.0.0.0? Small bug fixes and performance improvements. Note: While developing for the .NET Framework 4.5, we had to ensure that NightBar worked correctly on machines where the .NET Framework 4.5 has not been installed. In previous releases, we had been getting reports from customers of .NET Framework installation failures. These issues have been fixed. We also had a thread where the customer encountered a "Page Not Found" error. This issue was fixed by enabling the "Compatibility Mode" feature in the .NET 4.5 Installation. Since we needed to install the .NET Framework 4.5 on the customer's machine and to ensure that the issue is not present in our next release, we have not enabled this feature. Other than these issues, nothing else has been changed or fixed in this release.
