How To Fix Massive Serial Number Error The Game Eleven-year-old Will Rush lives in a small town in central Texas with his parents and older sister, six-year-old Maria. Will spends his days playing in the woods near his house with a bow and arrow he made from some old rags and bones his great-grandpa gave him, although he would much rather be fishing with some of his many friends. One hot summer day, the family car breaks down. After their phone line is cut off, Will and Maria decide to walk home, trusting the people who live in the small town where they live. When they are rescued by a group of strangers, the family ends up on a big RV, where they must stay until the police can track them down and take them home. By Joe Valle As an independent author and publisher, it's in my nature to want to get everything right the first time. The problem is, you can't make everybody happy. I am what you might call a perfectionist and a perfectionist does not always make a good salesman. I always like to sell the book once and then just publish. When possible, I try to make readers happy by releasing the book on various platforms like Amazon and Kobo before I put the book on sale at my own site. This is how it will
