I have a jar file for which I need to run it in a.war project that I'm developing. I'm running my file using java -jar myfile.jar. My question is how to run it inside my.war project? A: See this post for some ideas how to do it, or try these solutions: What is the best way to run a Java web application with Tomcat? Catholic Church in Switzerland The Catholic Church is a minority religion in Switzerland., there were approximately 140,000 Catholics of foreign origin, most of them Italian, and about 870,000 Swiss. There are also many with a German background, the United States being the country most represented, and the Vatican itself is also made up of Swiss people. History The Catholic faith first came to Switzerland in the 16th century, with the arrival of missionaries from Austria and northern Italy to spread the Christian faith. In the 17th and 18th centuries, the greatest wave of Christian immigration to the canton of Geneva came from the Brescia area (Italy) and the Neuenburg area in the south (Austria). This came to a halt following the wars that took place between France and Austria, and the French Revolution which began in 1789. The Catholic Church in Switzerland was then weakened by the dislocation of Catholic communities, and the increase of Protestant states. In the 19th century, with the creation of Switzerland
