The change in naming convention was the direct result of the sale of the AutoCAD graphics and technical publishing business to Autodesk. 1998 - U.S. \$1.5 billion purchase of the AutoCAD engineering and technical publishing business from DASSAULT SYSTEMES Canada Inc., including the U.S. version. 1998 - On March 16, 1998, the first major upgrade to AutoCAD was made, known as RC1. The SolidWorks product, which was released in 1997, had done this much earlier. 2000 - On November 1, 2000, the release of AutoCAD 2003 was made. In this release the product was renamed from AutoCAD 2000 to AutoCAD 2003. The release included 2D and 3D data models, was compatible with Windows XP, and had an improved UI. 3D capabilities included the ability to import and export 3D models in
