“Space Run is a racing/tower defense hybrid, this is a strategy game you play on the back of a racing truck on a track. What makes the game special is the 4 levels of weapon and shield upgrades; getting good enough to master these upgrades is pretty challenging. Additionally, although it’s a game about racing and towers, the emphasis is not on the races or towers; it’s on the upgrades for ships, as you gain wealth you can purchase the most powerful weapon in the game, which is a bomb.

Spamming the bomb is the best way to level up; by placing a bomb at the end of a track for the enemy to race around and hit. The towers are basically just distractions and help to send the enemy’s off track. The game is a great deal of fun and easy to pick up, once you master the strategies and abilities of your ship you’ll be crushing the AI.” Rating: MILWAUKEE - July 31, 2016 - From the same team that created cult hit, Flood, comes a brand-new attempt at the addictive, tower-defense genre. The full release of the game is available on Steam for PC, Mac, Linux and Android; with the release version spanning the three Steam platforms as well as the App Store and Google Play. Space Run Space Run is a fast-paced, adrenaline-filled Tower Defense (TD) game where players experience the beauty and terror of space in classic Tower Defense fashion. Space Run combines 2D platform racing with a real-time Tower Defense game to create a fresh take on the gaming genre.

Space Run is the second game of its kind after Flood and shares similar core concepts, but also brings its own unique set of features. Tower Defense: Every Space Run game has two key elements: racing and tower defense. In every Space Run game, you'll be racing along a track with an endless horde of enemies that attempt to prevent you from successfully completing your mission. To defend against these enemies, you're given a weapon that allows you to strategically place your ship into different spots to succeed. Racing: In every Space Run, you'll be leading a small fleet of ships into space. Using your ship's ability to make tight turns, you'll be left to fend off the endless track of enemies. You'll need to switch between your ship and defenses in an intelligent manner to maximize your firepower and minimize your casualties. The best

Visualizing the space in stunning graphics, the 2017 game of the year has become a cult of sci-fi shooters. The original has been re-imagined by Dontnod and publisher Focus Home Interactive for the PlayStation®4 Computer Entertainment System and the Windows PC from 505 Games. This first person space shooter features gripping single- and multiplayer combat, an immersive Star Citizen-style universe with procedurally generated content, an orchestral score and over 50 achievements. Take on battle missions in deep space against other pilots or adventure in an open world with your friends on the eve of the greatest battle of all time. Be a hero or set out to destroy the universe. Kicking off your journey in the second largest solar system, you quickly unlock the action-packed game and begin to explore the vast universe. Along the way, you'll get into the action with this unique system where you can choose your moment to pilot your ship with tactical skill. Earn skill points by activating a Skill Point Meter and by finding blueprints that unlock new tools and abilities. As you gain more skills, you'll become a master pilot capable of incredible feats in battle. Want to take out the enemy with a missile barrage? Do it. Ready to call in an airstrike? You'll get there. The ultimate space hero you are not, but that doesn't matter. The universe is your playground and you're only limited by your imagination. Producer Budgets - Value Product and entertainment businesses typically have a specific set of needs with regard to the costs and associated expenses for their various products and services. The entertainment industry is unique in that the business model for entertainment (e.g., movie, television, book, game, music and the like) is inherently tied to the idea of free-will consumption of the content. As such, the entertainment industry typically has higher costs and lower revenue than the majority of other industries. To illustrate, with respect to video content, the first unit of output (i.e., the content) can be created at a very low cost, with very high quality, relative to the other production expenses associated with the content. With respect to video production, typically the costs are the high-end equipment, the technical crew and the facilities costs. These expenses represent less than 50% of the overall production budget, which is typically comprised of approximately 50% of marketing and 50% of promotion. As such, producers of video content (e.g.,

television shows, movies, and the like) can be very involved with the process of managing the overall cost of their content as well as the budget for each of the aforementioned expenses. For example, producers may be able to capture revenue associated with the content on a per viewer, per exposure basis by limiting the amount of content they create and the number of times the content is aired and distributed. However, they may wish to have the capability to dynamically change the contents production and distribution model, as a means to capture additional revenue streams such as advertising revenue, or to obtain additional revenue from non-traditional media sources. In addition, the producer also wishes to manage their potential losses (e.g., an ad not played, or a television show not viewed) in order to maintain a high quality content output, as well as to limit their overall exposure to market risk. 06 Description Arch Angel Jaxon (Skin) Loadscreen - Play the game - The name's jaxon - I'm a traveller from the dimension of angels. I'm looking for 3 things: weapons, power and shade. I swear by the two light's of day and night, my own light and the light of my brethren. I call upon the angels to bend my wanderer's will, and bring me all the weapons that can be gained by mortals. I can take what I want, and you'll never know were I go, until it is too late. Send your souls to the abyss, as your wither in the shadow of my wrath. Your game started with the fall of Azathoth, the infernal core of reality. Fall from God's grace, and your afterlife will be as a soulless corpse, wallowing in filth until the next mortal incarnation. You have many strategies to defend your life. Death will not deliver you, and your life must be will be paid for in full. If you wish to continue on this path, we demand that you participate in our games. If you are victorious against our 3 archangels, you will be told of, and have offered your soul, if you die, all your otherworldly resources will be forfeit. Are you game to face us? -

----- Suggestions GuestGuest Advertisement As you can see, I have added the Portal items - they are grey to make it easier to distinguish them from the other colours. However, I wonder if it is possible

to avoid having these grey icons - they look out of place. Plus, instead of thinking of it as a "grey" skin, it could be called "Archangel." Other than that, it looks good. Thank you! Will definitely have to update this! It hasn't been posted in a while... You can change the icons via the 'extras' tab! I think there is no way you can remove the portal icons, unless you change every icon's colour! I'm not entirely sure though. They are hard to find and can be found around the icons area under extras. Happy
