I have a Mio Moov M400 and I downloaded a program that created a home . Mio Moov 830h About Products - MioMap - MapTool - Download-Tools - GPS - Keymap. pdf.Q: Ruby on Rails - How do I call a method that returns self? I'm using RoR 4.0.4 and I have an object "Club" and I have to make a method "get_and_update_statistics". I want to call this method get_and_update_statistics so the output of this method will be a list of clubs with different statistics. My method: def get_and_update_statistics res = Club.all res.sort_by! {|x| x.id} @club_list = res # How do I call this method? # I want to have an

output like this: # @club_list = [#] end A: I don't understand what you are trying to do in your method, but it seems that the syntax is wrong. Maybe this is what you need: def get_and_update_statistics res = Club.all res.sort_by! {|x| x.id} @club_list = res # return @club_list end

19/05/2017 - Media release Sargentence is disrupting the multi-billion dollar retirement savings industry. Sargentence is a start-up that is on a mission to better inform Australians about their retirement savings options and help them find a solution that suits their individual needs. The company is a unique fintech business that is developing a “human-centric” platform for delivering retirement solutions and services. It has developed a patented technology that can analyse and track the financial performance of an individual’s savings, investments and future needs. Sargentence has developed a platform that allows a financial institution or other third-party to “determine, adjust and monitor a consumer’s retirement incomes
