Note: Please be sure to download the Custom Recovery. Its actually must requirement. I know its not common but its must requirement. If your mobile don't contain TWRP Recovery Firmware then it is not compatible to Install Custom ROMs. If you don't have TWRP Recovery Firmware installed on your mobile, then your mobile is not compatible with Custom ROMs. In case if your mobile have TWRP Recovery then only you will be able to make it compatible with Custom ROMs. Custom ROMs are much better than Stock ROMs. You may also try Rooting your phone. With the rooting of your phone, you may be able to use the Paid Apps from Market. In case of Samsung, you can be able to unlock your phone. After all, You need to flash a custom Recovery to your phone. Only by that, you can be able to Root your phone and install Paid Apps from Google Play Store. If you are new to this way of flashing the stock Android firmware via the dedicated custom recovery, here is the step by step recovery procedure. There is no need to make any computer modification. All you have to do is just copy the Stock ROM on your phone and then go to recovery mode of your phone select flash via Fastboot or the data mode from recovery and then flash via menu.
