What's New In?

This tool will give you a way to easily create a single CSS sprite sheet. You can select one or more images in your desktop computer and place them in the board of the software. Once the images are saved, you can save them as a Sprite Sheet for any browser. You will also be able to resize images, add a group or drop a sprite sheet on your desktop and load it in the application, without any hassle. The software is very easy to use and offers you a lot of features to optimize your work: you can select and change the colors, transparency, borders, sizing and position of every image on your sheet at any time. You can also easily access all images inside a group or sprite sheet, check the size of every image, set the path to the original image, rename it and save your sheet. You can access all your sheet settings at any time. You can also export your sprite sheet to PNG, JPEG or BMP, as well as to HTML, ZIP or CSS depending on your preferences. The software is compatible with Windows XP,

Vista and 7 as well as Mac OS X 10.4 and 10.5. SpriteSheep License: One-time License Softonic Editorial Team This tool will give you a way to easily create a single CSS sprite sheet.
